* About Me

- I'm a web developer, specializing in front-end development. I have skills in HTML, CSS, JavaScript, Tailwind, React, and GitHub. I'm a secondary school student at We Technology Applied School, and I enjoy sharing my knowledge with others. I strive to acquire new skills and innovations that attract people. Feel free to ask me for anything, and I'll deliver it professionally and distinctively from others.

* Education

- WE Applied Technology School
- High Diploma, Web Development
- Description: I started programming with the basics of Python, delved into the web field, and studied the Front-End curriculum in school.

* Projects

• Portfolio :

I created a portfolio using HTML, CSS, and JavaScript, and its link is on GitHub.

• Calculator :

I used HTML, CSS, and JavaScript for all mathematical operations.

• CRUDS :

I created CRUD operations that allow you to create, read, update, and delete data. You can update the data you entered if you want to modify it, delete a single product, delete all products with one click, and search for the data you entered by Title and Category. For this project, I used HTML, CSS, and JavaScript

* Language

- English
- Arabic

* Skills:

- HTML
- CSS
- JavaScript
- Tailwind
- Bootstrap
- React.js
- Photoshop
- Responsive Web Design
